Monthly Growing Guide - July 2023

Planting Out

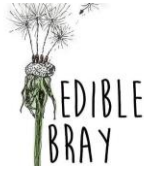

Sprouts, Peas and Beans, Leeks, Spring Onions, Marigolds and Nasturtiums (to protect carrots).

Tasks

- *Water all of your sowing and plants weekly or twice weekly indoors or in dry weather. Collect Rainwater for Summer use.*
- *Feed tomatoes and cucumbers weekly with organic liquid feed. Pinch out side shoots on tomatoes.*
- *Weed all planted areas thoroughly to prevent weeds being a problem in late summer.*
- *Check, Clean and Sharpen Tools.*
- *Continue organic Wildlife Management Measures. Use no chemicals.*
- *Remember to feed and water all containers regularly.*
